• This is a really fun course and I've learned a great deal this semester about computer science and object-oriented programming.

• Learned a lot of useful information in this course and I enjoyed it a lot.

• The course was was easy enough to understand, especially with material that can often get confusing. The tests were also challenging enough to get you thinking, but not to the point where you had to waste a ton of time on one question. It was an overall enjoyable course.

18 - THE INSTRUCTOR: Please comment on the strengths and weaknesses of Supraja Gurajala. Would you take another course from this instructor? -

• Dr. Gurajala is an amazing professor. She's incredibly invested in the progress of her students, and presents the material in a way that can be easily understood. No complaints whatsoever.

• Sometimes class felt a little rushed but I knew it was because we had a lot of material to get through. Maybe she could check in on students more to make sure that they're understanding and following along. Very nice teacher and a compassionate person.

• The professor was available every day of the week excluding weekends and Friday which was a great help, knowing you could always go for help puts you at ease. Was very helpful whenever I was confused with any assignment too.
